Check for Mistakes in this Word Problem: calc-pencils

Directions: All students are given five (5) pencils at the beginning of the school year. Write a function called calc-pencils that takes the number of students in the school and calculates the number of pencils needed for that school.

Contract and Purpose Statement

Connact and Forpose statement												
Every contract	has three par	ts										
; calc-pe		number					-	→	number			
function name				domain							range	
; Takes	a number	of	students	and	gives	the	e nu	ımber	of	pencils	3	
what does the function do?												
Example	es .											
Write some examples, then circle and label what changes												
(EXAMPLE(calc-pen	calc-pencils		100		(*	100	5))
-	function name		inp	input(s)				what the function p		nction produce	es.	
(EXAMPLE(calc-pencils		40)	(*	40	6))
-	function name		input(s)					what the fun		ction produces		
Definitio	n											
Write the defin	ition, giving va	riable	names to all y	our inp	ut values	•••						
(define(calculate-pencil			.] р	р								
	function name	9	variak	les								
(* p 5))

what the function does with those variables
